Mr. Pulks, who was in the twenty-first year of his age, bas been for the past ten years a beloved member of the Second Baptist church, of Richmond. As a member of the choir and Sunday school, and an over-ready and cheerful worker in the church, he had endeared himself to the T. W. Weed & Sorn, of Richmond, and during this time he faithfully discharged his duries. The deceased was the eldest son of Mr. Chalborne L. Fulks, and came to this city a few years ago from Richmond, though the family originally came from Huguenot Springs; in Powhatan county. Mr. Fulks was held in high esteem by all who knew him, and his sad death has cast a sloon, over the entire sisters, and one brother to mourn their loss. The family has the sympathy of a large circle of friends in their sad be-

Balance on hand October 2, .. \$ 25,228 03

Total balance in the Treasury to the credit of the several funds October 2, 1833...... \$ 982,435.50

The annual interest on the public debt is \$354,947.44; on the college fund, \$146,067.32; making a total of \$701,014.76. The interest paid out last year was \$1,285,542.67, or \$594,527.31 more than the interest account for the coming year. This difference is due to the fact that last year two years' interest was paid on the public debt, it having accumulated during the process of debt settlement. The two years' interest payment also accounts for the discrepancy between the balances of 1892 and 1893. Out of the balances of 1892 and 1893. Out of the balances of 1892 and 1893. Out of the balance for 1893, viz., \$902,625.59, all the January appropriations will have to be made. The estimated revenue for the next fiscal year is about \$3,290,000, and it is calculated that after paying interest and all expenses of the government there will be a balance in the treasury of about \$75,000. It was thus be seen that while the revenues will be ample for all practical purposes, and that if needed reforms are haitsynead and the ample for all practical purposes, and that if needed reforms are inaugurated and car-

ried out the Commonwealth's financial cor ried out the Commonweathers, it will dition will continue to improve, it will be wise for the General Assembly to pur-sue a very conservative course in the way of making appropriations. THE PERMANENT EXHIBIT. President Wood's Plan of Showing the

Resources of Virginia by Counties. President Harry W. Wood, of the Virginia Agricultural Society, has received a letter from Dr. Apperson, business executive commissioner of the Board of World's Fair Managers, in regard to a permanent exhibit at the State Exposi-tion grounds of Virginia resources, in which he declares himself to be heartly in sympathy with the movement and promises any assistance in his power favorable to the scheme. Mr. Wood's idea of the collection of the exhibit is to get the different counties in the State to

make exhibits showing the products and resources of their respective localities, as they have done in the past at our fairs and expositions. These exhibits are to be gotten up more with the idea of remaining permanent at the Exposition grounds, to be added to whenever there is anything new. By this means the counties of the State would always have a good exhibit at State fairs or expositions, and visitors to the State and investment

and visitors to the State and investment hunters would see the State in a mina-ture form at all times. Parties interested have already signi-fied their intention to go to work to get up a splendid exhibit for the next fair for Henrico county. Chesterfield and Red-ford are sure to come in, and it is con-idently believed that at least fifteen counfidently believed that at least fifteen cour hild will of course induce them to put forth their best efforts.

Mr. Wood thinks these exhibits should

be neatly arranged and labeled, and the exhibit should be at the Exposition grounds where the secretary now has his office, which would enable visitors at all

time to have access to the display.

The president also thinks it would be right and proper to have manufacturers, miners, quarrymen, etc., make permanent exhibits. He says already a number of them have spoken to him on the subject, and expressed a willingness to place an exhibit at the grounds to remain per

One Wife Too Many.

David Frazer alias Davis was arrested here yesterday marning by Sergeant Tomlinson on a warrant charging him

with bigamy.

The prisoner claims that while he was on a spree in Philadelphia he went through some kind of ceremony suppos-

ed to have been a marriage.

About two weeks ago he married his present wife, who is a spiritualist, and came to Richmond. Wife No. 1 saw a friend of his in New York and said she was given \$200 she would not

take any steps against him.

This information was communicated to him by letter, and he wrote back to New York Monday to pay the woman and he would return the money. He expected to hear from New York yesterday morning, but instead was arrested.

"FAIRY STONES," Curious Natural Crosses Found in Pat-

rick County, Va. The Times is indebted to Colonei Asa Rogers for some pretty specimens of a curious little stone, found only in a little

knoll in Patrick county, Virginia, and pronounced by leading scientists as here-tofore unknown to the mineral world.

These stones, which range from one-quarter to three-quarters of an inch in size, are all in the form of a cross, some plain others perfect Maltres crosses, but plain, others perfect Maltese crosses, but no two are alike, and there is a pretty legend that when the news of the Crucifixion was brought by fairy couriers to the fairles who flourished in that age, they all fell to work making these little crosses as souvenirs of the event.

as gouvenirs of the event.

They make very pretty and unique scarf pins or charms for watch chains, dark reddish brown in color. They were first brought to public attention by Coionel Propper, who noticed one which was worn by a lady who lives in the vicinity where these stones are found as a "lucky stone," "amulet" or "talisman," which she said would protect the wearer against witch crafts, sickness, accidents, and other evils and they are being much sought after as curiosities by parties who are writing for them from all parts of the Union Those who indulge in games of chance the book-mkers, pool-sellers, and even th jockeys are writing for these stones. The "rabbit foot" is no longer in it. These stones contain titanite, tourmaline, gar-net, aluminum, and steotite, titanite be-ing the principal material. These stones are rapidly becoming a fad with prominent people. Mr. Cleveland has one, and John S. Wise, General Roger A. Pryor, Judge McAdams, Governor-elect O'Ferrall, and many other prominent people now wear
